We are under a small expense and therefore can sell cheaper than any one else in the two counties. Come in and prove it to yourself. ## MAN MUCH SOUGHT FOR

**BULLY HAYES AN OUTLAW IN ALL  
MOST EVERY CIVILIZED PORT.**

**Deeds of Daring and Sharpness Had  
Made Him a Notorious Character  
Throughout the Whole Pacific—  
Australia Most Angry.**

Bully Hayes, the South Pacific pirate, as he was called, was a frequent visitor of San Francisco harbor and became the most notorious character in the whole Pacific, says a writer in the London Weekly. Over six feet three inches in height, he was possessed of immense physical strength and of this he was extremely proud. He was also a handsome man, with bright blue eyes, a strong nose, well cut mouth, large mustache and long clustering hair. The most marked feature in his character was temper, which, when once aroused, passed entirely out of his control. In these moments of ungovernable rage he became little short of a madman. His smiling face would assume the look of a demon, his eyes became almost black, and his face flushed to a deep purple. At such times he would do deeds of the greatest cruelty, not scrupling to take the life of those who offended him. Possessed of considerable culture, speaking German, French and Spanish fluently, his scandalous performances had made him an outlaw in almost every civilized port.

Sharp lookout was kept for him at Melbourne in consequence of an unscrupulous fraud he played there on the occasion of a previous visit. He had shipped 300 Chinese at Hongkong for Melbourne. At that time a poll tax of \$50 each was paid by every Chinese landing at that port. Before going on board the Chinese had each paid Hayes their \$50, as well as the charges for the voyage; but the lawless captain had no thought or intention of paying over to the Australian government the large amount he had received as poll tax, amounting in all to something like \$15,000.

When the port was within sight he contrived, with the assistance of his carpenter, to almost scuttle the vessel by making a large hole in the side. In an apparently waterlogged and sinking condition the vessel slowly entered the harbor. Hayes then had a flag of distress hoisted. Immediate-

ly the pilot and a number of tugboats put out to their assistance. When they came alongside the captain shouted, telling them of his sinking and hopeless condition. "For mercy's sake," said he, "don't stop to tow us to the shore, but save these poor fellows. Then, when they are on shore, come immediately for us. In the meantime we will work away at the pumps and try to keep the ship afloat."

Accordingly, the 300 Chinese were transhipped into the tugboats and conveyed to the nearest landing place, which was several miles away. While this was being done all hands were put to work at the pumps. Then when the last of the Chinese had been taken off, the bow of the vessel was turned seaward and away went the ship with Captain Hayes and his crew. He had managed to land 300 Chinese and yet kept the \$15,000 poll tax for himself. It was a cruel business for the pilot company, who had to pay the poll tax themselves, and were nearly ruined thereby.

**Thibetan Tea-Making.**  
An Englishman, while in Thibet, was invited out to tea and learned the art of tea-making as practiced in that country. It appears to be somewhat as follows:

For six persons boil a tea-cupful of tea in three pints of water for ten minutes, with a heaping dessertspoonful of soda; put the infusion into the churn, with one pound of butter and a small tablespoonful of salt. Churn until the combination is of the consistency of cream.

The Thibetans prize butter for its age. The best is often forty, fifty or even sixty years old.—Harper's Weekly.

**Huge Electric Clock.**  
To advertise a Boston company, a large electric sign has been set up in that city measuring over all 54 feet in width by 60 1/2 in height. The sign contains a clock with a dial 24 feet in diameter, at each side of which are columns studded with electric lamps. The minute hand of the clock is 18 1/2 feet long and weighs 428 pounds, while the hour hand is 14 feet 4 inches long, weighing 386 pounds. The total weight of the structure is fifteen tons. Altogether there are 5,222 lamps used in the sign.

## HOW THE FIRST \$100,000,000 HAS BEEN USED.

Some persons are asking and very properly what has become of the \$100,000,000 raised on the First Red Cross War Fund about a year ago. The inquiry does not in all cases come from those who are ill curious as to what use this large fund has been put not only from those who would attempt to justify their refusal to subscribe to the Second War Fund on the ground that the money had not been distributed according to their own judgment of the needs. Many persons who have an intelligent and patriotic interest in this great organization ask this question simply that they may become informed.

To satisfy the needs of inquirers the American Red Cross has published a very elaborate statement showing in detail where the money has gone. The total amount disbursed on the first drive amounting to \$100,000,000 was \$106,158,137. Of this the sum of \$16,881,424.25 was refunded to the local chapters to provide funds for the purchase of materials used by the workers in making hospital supplies, surgical dressings and other necessities. This left \$89,276,712.75 available for the relief work of the national organization. To March 1, 1918, \$91,822 of this amount had been appropriated to the 101 different activities in this country and Europe, and Asia, leaving a balance available for appropriation on March 1 of \$11,549,891.11. At the normal rate of appropriation this sum will have been virtually all allotted by June 1.

The appropriations of \$77,721,918.22 to March 1 have been distributed as follows: France \$30,336.31; England \$2,078,575; Italy \$2,588,826; Roumania \$2,676,356; Armenia and Syria \$2,790,000; Belgium \$2,986,131; Russia \$1,245,845; Serbia \$753,180; Canada \$503,600; Palestine \$300,000; for American war prisoners in Germany \$24,324; Poland \$24,000; International Red Cross \$24,000; or work in United States \$8,689,899; working capital for the purchase of supplies \$15,000,000.

Relief work in the countries at war is divided generally into two classes: military and civil. Under the former comes the equipment and maintenance of hospital and ambulance service, fixed and movable canteens for men in camps at the front and behind the lines, the collection of information as to casualties in battle and the whereabouts of prisoners, together with numerous other activities all designed to promote the health, comfort and welfare of the soldiers.

Civilian relief work embraces caring for the refugees driven from the war zones providing them with housing, food, clothing and employment. An important part of this work consists in the reconstruction of villages, furnishing agricultural implements and tools which enable the sickened people of these lands to grow crops and gain a livelihood. The care and prevention of tuberculosis which has made ravages upon the civilian population almost equal to the casualties of war upon the army is one of the most important branches of the Red Cross work. These are but a few of the many things that are being done to maintain life and to re-erect hope among untold thousands of people in the countries that have suffered the scourge of war and the unspeakable barbarities and cruelties of the Hun and the allies. Thus, taken together, with the work among the soldiers, constitutes the most gigantic undertaking of mercy that has ever been undertaken in the history of the world.

That the American Red Cross has been equipped by the generous gifts of the people of the United States to meet the situation on the scale that it must ever be a source of pride to all who have contributed to the First War Fund. The magnificent work of this organization on must not now be regarded as an ended and made still more effective by one of the factors essential to carrying out the mission can be filled depends upon the extent to which you give expression to your compassionate interest in extending relief to the suffering and

distressed of every nation and tongue as well as in caring for those who have gone out from our own homes and firesides.

The Scottish Red Cross have sought the spirit of the great agency of mercy and they have shown their patriotism and industry no less than their willingness to sacrifice for the men Over There. Therefore their appeal for help on the second War Fund is a true and it is certain to have a hearty response. That is what Scotland was of providing for worthy and deserving causes.

Attendance at church tomorrow will be the very best way to begin the observance of Red Cross Week.

The Courier has never stated nor insinuated that Company D is not strictly overseas. It sincerely hoped to be in good fortune. But it has held a well established beyond every doubt since that of the 11th informed that authentic news has not been received here of the arrival of any part of the 11th Regiment except the advance detachment which did not include Company D.

Germany proposes to enact a law making marriage compulsory before the twentieth year is past. This and the suggestion to make polygamy lawful which is being seriously considered are other evidences of the enlightening influences of Kultur!

The 41ers will go to the bottom of the difference, but they will find plenty of room at the top of the enlistment list if they prefer to enter the service by this route.

Bill the Big Boss being reported on the German front by the next D. Push may be expected to begin at any time. The Big Smasher will come in time. Bill will be both if it stays on the case long enough.

Wed in Cumberland.  
Irvin Wolford of Bedford and Maude Mills of Leisenring, William Heck and Catherine Davis of Conneltsville and Lester Brant and Ethel Miller of Somerset took out marriage licenses in Cumberland yesterday.

**Japanese Greeting.** Nothing is more amusing than to see two acquaintances saluting in the streets of a Japanese town. As they come in sight of each other theyicken their pace and approach with wncast eyes and averted face, as if either was worthy of beholding the her; then they bow so as to bring a face on a level with the knees, on such the palms of the hands are osted.

A succession of hissing sounds is heard, made by drawing the eath between the closed teeth, interspersed with complimentary raser uttered with great volubility, ch trying to outdo the other.

At last the climax is reached and ch endeavors to give precedence to other. For perhaps a full minute; polite coatest continues; then theemony abruptly ends, as if the dity were capable of none but a iague solution, and the two pass on, riedly, with a look of extreme re- zt. The Japanese gentleman who has ay acquaintances must require an it to walk the length of a block on dty street.

### REPUBLICANS

(Political Advertisement.)

In order, apparently, that campaign funds may be had, some very peculiar tricks in the price of liquors have just occurred in our county. We are told that beer was raised within the last few days from \$1.00 to \$1.90 a case. We are told that the prices of whiskey by the drink in Connellsville was raised within the last two weeks. Prices of liquors have been raised in our county at the time of other elections. Do these facts mean another corruption fund in our county and state?

If so an application should be made to court to revoke the license of every one who contributes to this fund. If license holders have contributed at this time they had better get their money back.

The politicians have been collecting money from the liquor dealers to corrupt elections for years. The liquor dealers have, in turn, been making the men who drink the liquors pay higher prices in order to get their money back. So long as you support the candidates of leaders responsible for this state of affairs, so long will you pay dearly for the privilege.

Why members of the Elks, Moose, Owls, Leons and patrons of saloons are content to pay exorbitant prices for their liquors in order that a certain man may control the political destiny of our state and against the interests of the people, is beyond any reasonable man's comprehension. Do not let them scare you this time. If you do, this robbery will continue. Men, will you not act on your own better judgment?

Permit us to suggest that you vote for J. Denny O'Neil for governor, John R. K. Scott for lieutenant governor,

Houck for secretary of internal affairs, Burke, Crago, Mitchell and Robbins for Congress-at-Large, Kendall for Congress, Benson in First legislative district and Francis in the Second.

There is no occasion to buy votes or corrupt the ballot box at this primary because all the candidates are Republicans.

Every good citizen should go to the polls and vote. If there is any violation of the law and you will report the same to us, the name of the one reporting will not be disclosed without his permission.

# OWNER COMISKEY PREDICTS WHITE SOX PENNANT VICTORY AGAIN THIS SEASON

"I can see no reason why the White Sox will not repeat this season the victory they put over in 1917." Such was the enthusiastic declaration of Charles A. Comiskey, owner of the world champion Chicago White Sox, and one of the biggest men in the national game in point of prestige. "Our club remains intact," he added. "Except for the loss of Joe Judge and Jim Scott, who have joined the colors, we will have the same club that won for us the championship of the world last autumn. We have a veteran ball club, most of our men being married. Therefore we have lost few in the draft. And, also, we have no holdouts."

## YANKEE SOLDIERS IN FRANCE

Americans Organize Baseball League in Paris and Are Ready to Arrange Schedule.

The American Soldiers' Baseball League, which has been organized in Paris, is ready to arrange a schedule for the season's games. The league comprises clubs made up of men of all the different categories of the service in the city—the aviation corps, the engineers, the military police, the soldiers and sailors club, the Red Cross, the Y. M. C. A., and the quartermaster's department.

Practice games already played have shown plenty of good ball and available for the teams, whose workouts in the Tuileries gardens, in Montmartre, and other quarters of the city have aroused great curiosity on the part of Parisians.

## SISLER AFTER LEADING HONORS THIS SEASON

George Sisler, the first baseman of the St. Louis Browns, will make Ty Cobb look to his laurels the coming season. Sisler ran second to Cobb in batting last year, hitting over the 300 mark. This season he should go even better. Sisler is the best all-around player on the diamond. The New York Yankees made a mighty effort to land this wonderful player, offering a record breaking sum, but the offer was spurned.

## PETER-THE-GREAT ENJOYS FULLY EQUIPPED BUNGALOW

Elite horse racing circles have been invaded by the bungalow craze and "Peter-the-Great," the famous 207½ lbs. star has a bungalow home to himself on the estate of Stoughton A. The bungalow cost \$1,500 and is fully equipped with electric lights, hot and cold water, large electric fan for the summer time and even a porch and flower boxes. ## HANK GOWDY WRITES LETTER

Gas and Baseball Masks Are Quite Different, Says Former Backstop of Boston Braves.

"It makes no difference how many years a fellow wears a catcher's mask it doesn't give him one bit of training for wearing gas masks," writes Hank Gowdy former catching star of the Boston Braves. Hank is a member of the 160th United States Infantry, with the American expeditionary force "over there," being the first baseball player in either of the big leagues to enter the service.

"Gas masks," writes Hank, "I hate 'em. I'll bet they're worse than the gas itself. I am almost tempted to risk it. They're hard things to handle, hard to put on, harder to keep on and hard

# DIAMOND NOTES

Bill Kall for has been made held captain of the Cubs.

The Brooklyn park department provides 23 diamonds for youngsters use.

Hal Chase is playing first base for the Reds in brilliant style. He seems as young as ever.

Baker and Bodie ought to bat in the 300 class this year with Pratt and Pipp not far behind them.

Martin Kopp's fine holding and base running is earning him a job on the Athletics in place of Ping Bodie.

The Philadelphia Nationals announce the release of infielder Oscar Ducey to the St. Paul American association club.

President Baum of the Coast league announced Pete Casey, Ralph Tracy and Ed Flinn as his three umpires to start the season.

Dave Hickman the youthful outfielder who made good in the Federal league is turning up the pasture for the Dodgers this spring.

Clark Griffith having made an outfielder out of Sam Rice, now promises to do the same with Al Lusch, one of his young pitching recruits.

Ed Carey the White Sox pitcher broke a leg in a practice game at Dallas last week. A young Chicago scout who had great possibilities.

Baseball games in Milwaukee will start at 3:30 p. m. this season instead of four o'clock, the time advocated by some of the club owners of the American association.

Jack Munch who had a chance to break into the big show with Connie Mack, but could not see Connie's terms will return to Atlanta and continue to first base for Charlie Frank's team.

The Atlanta club announces that it has taken on two players who were with Mobile last year in Catcher Dave Griffith and Infield Ward McDowell.

# America Gets Into Greatest of All Games

Tries Her Hand at Intrigue With Great Britain, Germany and Japan

Oppenheim Tells About It Exclusively In The Pittsburgh Chronicle Telegraph

A British army officer discovers an explosive so powerful that the nation possessing it may dominate any opponent. Flushed with success he discloses. His attention at a luncheon party in a fashionable London restaurant interested representatives of four nations—Great Britain, Germany, Japan and the United States—are there and have reason to believe the inventor has the formula of his explosive on his person.

Immediately things begin to happen. Almost before their eyes the intricate diplomatic and then the search and chase not so much for the machine, now as the valuable secret he carries, begins.

Physically powerful, worldly-wise, with unlimited financial means are the contestants for Great Britain, Germany and Japan. The United States is championed by a girl—but such a girl! Beautiful, high spirited and daring—just the type of the thousands who are now bending all their energies in war work—this girl is the central figure in "The Power Count," a brand new story of international intrigue, written by the master hand of V. Phillips Oppenheim whose books on diplomatic and military have given him a worldwide reputation.

"America is it, America only America," says the motto of the heroine and she tries to her woman in a way to arouse the patriotism and applause of her readers from beginning to end. Nor has she mean opportunities with whom to deal—they are the keenest minds in the secret service.

This time as a member of the Nashville team.

Old Granddaddy veteran pitcher after declaring himself to be the best work of training the Los Angeles team.

The Detroit Club has nine new pitchers and only one of the lot is a left hander. He is Dot Hinds who was last seen in with St. Louis in the Western association.

President Duncan of the Oklahoma City club of the suspended Western association is quoted as saying that he expects to see Calhoun City in the Western league by July 4.

The Oakland club has lost a promising pitcher because of the injury to Lorkford, the Indian. If Lorkford is in his pitching line, he will be out of the game indefinitely.

According to Newark report Infielder Jack Lewis has been sold to the Indianapolis club. According to St. Louis report that being Lewis' club has a quiet baseball. So there you are.

Big salaries are a thing of the past in the American association. The last most of the clubs will play this year is \$300 a month and one manager is reported that few players will get it amount next year.

Ruth Has Two Chances. Babe Ruth the big Red Sox twister is going to win 30 or 40 games this year. Unlike most pitchers he has two chances to win. If he fails of victory with his shoe he still has a chance to claim one with the bat and put the game on ice.

Hummel Playing on Coast. John Hummel for many years with the Brooklyn club and last season his base in for the Buffalo International is now playing an outfield position for the San Francisco club.

## PITCHER TYLER IS CLEVER AS BASEMAN

Many Chicago fans have wondered whether Manager Fred Mitchell of the Cubs was in earnest when he said he would use Pitcher Tyler as substitute first baseman this season. It strikes them on the funny bone to hear of a twister occupying the infield during important championship games.

Mitchell says he is very much in earnest. He has seen Tyler practice in that position and knows he fields the place with speed and accuracy. He also knows that Tyler is far from being a weak hitter.

Hine Zim Is in Form. He was a footman with a bush league in an exhibition game the other day. He is now ready to resume his pursuit chase of Eddie Collins.

The chicken world is one of the most gratifying ways of helping the man. To see those pelous enjoying the first delicacies they had, for days is a most satisfying sight! The English and French maintain canteens where they dispense soup, hot coffee and cocoa, tobacco chocolate, etc but the Americans Red Cross canteens serve real food. The French and Americans are inordinately fond of oysters and salad when they can order a plate of oysters or a dish of salad in an American canteen they are as happy as children. We have six canteens in the French zone for the French army—France is, of course divided into zones. In one line of communication there are 300 canteens, 900 in 100 men a day. These canteens are near the railroad stations for the benefit of the men going to the front being transferred to some other section or going home on a furlough. In one section the

an, Miss Avis Slaughter, Miss Ruth

Fern Rosa, Adella Gossard, Maudie  
Steele, Laura Shannon, John Baker-  
ak, Eva Carlson, Florence Eubank,

**Mother, Wives Wanted.**  
The mothers and wives of the sol-  
diers in the service are asked, if they  
have been missed with a personal in-  
vitation, to take part in the Red Cross  
parade Monday. The parade forms  
at Eagle street at 6 o'clock. The Boy  
Scouts are delivering the invitations.  
The West Penn Railways company  
has promised to run special cars on  
its lines into Mount Pleasant on Mon-  
day evening for the parade, which  
promises to be the largest in the his-  
tory of the town. Plans representing  
every phase of Red Cross work will  
be in line.

Nunna Hooper, youngest daughter  
of Dr. and Mrs. M. W. Hooper, fell  
and broke her arm while at work at  
the elbow.

## BILLETTS ARE JUST PLAIN ROOMS, NOT SWELL APARTMENTS

Continued from Page One.  
"We have been urged to make no in-  
vidious comparisons between the un-  
dignified Yankee ways and the an-  
tiquated things of France and other  
European countries. That's good ad-  
vice, all right, but one can't help but  
be amused at some of the things ho  
says."  
"For instance: There was a fire  
yesterday and wild excitement pre-  
vailed. Convalescent soldiers from  
the French hospital came hobbling up  
the street with a two-wheeled truck  
on which was a big pump. This was  
unloaded at a trough, the hydrant  
turned so the water flowed into it,  
and the men took turns pumping.  
American soldiers climbed to the roof  
of the house and extinguished the  
blaze with their usual promptitude  
to act in an emergency."

"They have no newspapers here,  
but they get along very well with a  
town crier, who mounds about every  
morning, sings at the street corners,  
beats furiously on his drum and tells  
the news of the day to the assembled  
crowd. The American soldiers got  
his goat to such an extent that he  
will not cry his news where they are  
congregated. I understand the crier  
is a very important personage, on a  
scale with 'high constable' back home,  
perhaps."

"Almost every man, it does not mat-  
ter how old, seems to be a soldier.  
All of those I have noticed seem to be  
of middle age or over. And every-  
thing the odd little train chugs its way  
into the station, it discharges a lot  
more soldiers, at the same time taking  
on others on their way back to the  
fighting front. There's no question  
about it, France is fighting a death  
struggle. On the way here we talked  
with a number of young French ar-  
tillerymen on their way to the front.  
One of them could talk English rather  
well. He said he was at the univer-  
sity studying to be an 'a-v-o-c-a-t-  
what you call attorney, when he was  
called to arms. After three months'  
training his regiment was on its way  
to the front to assist in holding back  
the great German drive. 'It is not so-  
cientist,' he said, 'but it has to be.'"

### Some Errors So Big a Barrel Won't Hide Them

Have you ever felt like hiding yourself in a barrel after you had been the victim of  
your own folly? There isn't a boy or girl, man or woman but who appreciates substantial  
clothing. Men and women select their own, if they are wise, from the home merchant. The  
foolish parent aims sometime to take advantage of the alluring bait of the catalogue house  
and invariably they pay the consequences. A little rain, strong sunlight or even slight  
dampness wrecks the garment they have bought from these out-of-town concerns and when  
the child looks shabby the parent naturally feels a drop in pride and resolves to stick to  
the home merchant in the future. The home furnisher of your children's clothing provides  
the best he can obtain and is ever ready to make misfits and imperfections right in a satis-  
factory way.

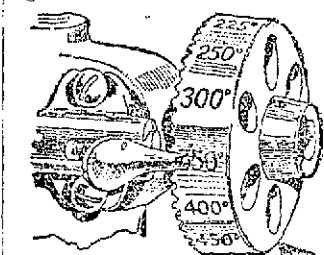

MORAL:—Don't hide in a barrel when some home dealer can tell you how to avoid it.

## A Purposeful Formula

Senreco's Formula is not "just a little of this and a little  
of that."

It was devised with a definite object in view.  
The object was to produce a tooth  
paste possessing medicinal as well  
as cleansing properties—a real  
cleanser that could be depended  
upon to remove tartar and keep  
mouth and gums healthy.

The ideal defined, our labora-  
tories set about to determine the  
proper combination to produce it.  
Senreco is the result. It has been  
tried, tested and pronounced good  
by hundreds of the profession. Try  
a tube. A single tube will prove  
every claim. Will show why thou-  
sands today use and demand Sen-  
reco—and are satisfied with noth-

## SENIOR NOTES.

(By Myra Conway.)  
On Tuesday the Seniors were assigned their parts in the pageant which is to be given on class day, commencement week.

## A Winter's Song.

The "Martin" no longer scared o'er head.  
The "Hair" had sought its hair.  
The "Weaver's" chirping note had ceased.  
The "Baer" with his shaggy hair  
Now went with a "Rush" along the "Wedge".  
To "Hunt" for a cave nearby.  
The "SD" "Cox" and hens were in the barn  
Where the "Hay" was piled up high.

The "Miller's" wheels were frozen still.  
The black "Smith's" door was barred.  
The winter breezes were let in.  
For the "Ward" was off his "Guard".  
The earth's white "Hood" was blown up high.  
The "Rhodes" were bare, unfrocked.  
Stark nude were the limbs of the trees  
In the "West".  
What wonder the corn was shocked.

Miss Mayo, assigning the parts for the Senior pageant, "And you must come in to practice for class day every time even if you only have to stand in the background and look pretty."  
B. B. Smith—"Sometimes that's the hardest part."

When we hear our orchestra play,  
We wonder how they dare.  
But then, of course, they have the right,  
Because they "rent" the air.

The Seniors are slaving but surely coming to the front on Thrift Stamp day. Good will out.

"Bill" Jones—Mr. Dikeman, I think this lesson on iron is hard.  
Mr. Dikeman—"Well, don't you know that iron is always hard?"

Mr. Alderfer—"Betty, what are we doing with wheat?"  
Betty—"Preserving it."

Don't worry, Miss Molard, we'll "get" something on you yet.

## SOPHOMORE NOTES.

(By Dorothy McClellan.)  
Last Wednesday at 3:30 Mr. Woodhead took about 75 of his Biology students to Tate's Hollow to secure flowers. Up to the 6th period on Thursday the largest number collected was 26. By mistake of one of

## MORE THRIFT STAMPS.

This week's report on Thrift Stamp sales in C. H. S. is much more favorable than that of last week. But at the same time this does not say a whole lot for us. There are \$80 pupils in the Conneltsville high school and the purchases this week amounted to only \$203.74. For a high school of nearly a thousand pupils this amount falls away below what it should be. We should have no trouble at all to raise \$500 every week, but so far we have not even attained this goal. We attribute the greatest cause of this deficiency to students forgetting to bring their money. If you ask your parents for 25 cents to buy a Thrift Stamp we feel that they will be only too glad to give it to you and see you save your money. We would suggest each assembly set a goal and each week try to reach that goal or go "over the top." This would help greatly toward C. H. S. attaining that \$500 mark and give us an opportunity to say that C. H. S. is doing more than its "bit" in the winning of the war.

A hint for "Tiger" readers:  
After you have read "The Tiger" through once, go back and read it all over again. You will get twice as much enjoyment out of it. Try it.

The Thrift Stamp sales in C. H. S. by classes are as follows:

First Year	\$ 73.79
Second Year	23.79
Freshman	11.89
Sophomore	16.80
Juniors	40.28
Seniors	37.19
Total	\$203.74

At a meeting of the basketball team last Friday, John Moore was re-elected captain for next year. The names of the letter men were also given out. Those who received letters are: James McConnell, George Struble, William Lyons and John Moore.

Mr. Woodhead said in the fourth period on Thursday that he knew there would be some satire in "The Tiger" about his hike. We congratulate our editors. At least the faculty knows how influential our paper is. It will take Genevieve a week or so to get enough to eat to satisfy her hunger after that hike.

Lindore Molnick has a severe cold, the pupils about 20 of the party were led from the trail but succeeded in reaching Tate's Hollow by following a small stream. The pupils reached home between 9 and 10:30.

## JUNIOR NOTES.

(By Estella Wilson.)  
Sonder a Hero.  
During the hike with Mr. Woodhead last Wednesday afternoon, Eugene Wagner, Abe Shertz and "Crusie" Robinson succeeded in losing three Junior girls, Anna Marion Solisson, Louise Rankin and Mary Laws. John Sonder played the part of the hero and saved the girls when he found them in mud up to their shoe tops.

Prof. G. J. Dikeman is the first one of the faculty to sport a straw hat.

The members of the Junior girls' basketball team of 1917-1918 had their pictures taken Wednesday afternoon. The six regular players, with the two extra players and Mr. Alderfer, the coach, were in the picture. The Senior girls of next term expect to have a splendid basketball team, and there are strong hopes for a girls' High school team as well as the class teams for the coming year.

This is Mr. Alderfer's definition of love:  
"Love is a misunderstanding between two fools."

We wonder how some of the Seniors will take this definition.

Miss Armstrong was afraid to ask any questions in her first English class on Thursday for fear of disturbing some of the slumbers.

After the close of school Mr. Woodhead and Mr. Dikeman intend to devote themselves to Red Cross work as doctors. Ernest Yaw will be their assistant. They proved themselves fit for so worthy an occupation at Delaney's cave on Saturday.

The domestic science girls are surely learning to buy economically: Genevieve, entering a meat market—"A pound of liver with no bones in it please."

Paul—"I have a job at the races." Mr. Woodhead—"What?"  
Paul—"Blowing peanut shells off the truck with a soda straw."

Can you guess this riddle?  
She is not very tall.  
And guards the second hall;  
But although she is small,  
Her heart is larger of all.  
She teaches of things  
That are long gone by.  
But when she assists a lesson  
We can't resist a sigh.

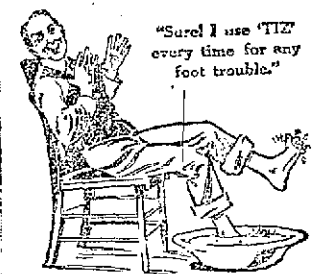

Fred Danner says his favorite game is hockey (Hauke).

Notice.

Which is only another way of saying that Humanity is calling. The Red Cross carries food and clothing to widowed mothers and orphans in stricken France.

The Red Cross stands beside our boys in training here or "over there."

The Red Cross watches beside the pillows of battle-broken men, and offers rest and sympathy to war-torn fighters on brief respite from the front.

How much is it worth to you?

## Correcting a Mis-statement of Fact

A short time ago a reputable business firm of this city advertised Vudor Porch Shades, and in their advertisement stated that theirs was the only establishment in Conneltsville selling them.

That statement was incorrect as the above advertisement will show. Customers will find us ready at all times to meet their needs.

### Extraordinary Head-Dress.

An ornithologist in Mexico, while collecting birds for the National museum, caught sight of a blackbird—one of the Mexican cowbirds—which seemed to have a snow-white crest. This would be an extraordinary specimen for his cabinet, and after considerable trouble he succeeded in shooting it. To his further astonishment, the supposed crest proved to be a piece of white cloth stitched into the scalp and trimmed to represent the comb of a cock. The only explanation he could imagine was that the operation had been done by some of the Indian natives when the bird was very young. The wounds of the operation were entirely healed and the bird seemed well and cheerful under its novel adornment.—Harper's Weekly.

## At the Theatres

### THE PARAMOUNT.

"OUR LITTLE WIFE"—A Goldwyn farce-comedy of young married life, with a pleasing impersonation of the irresponsible and childish wife by Madge Kennedy, the captivating screen star, is being shown today. Miss Kennedy is supported by a cast of unusual excellence and is given an excellent opportunity to display her ability as an actress. The story is delightful, and Miss Kennedy's superior interpretation of the role makes the picture one of the best screen attractions produced for some time. A selected comedy is included. Monday, Harold Lockwood, the Metro star, will be featured in "The Land Beyond," a drama of sociological adventure, adapted from Holmes P. Day's novel of the same title, by Fred J. Balshofer. Mr. Lockwood is seen in the role of Walker Farr, and Fumino Curley as Kate Kilgorn. Thursday, Evelyn Grealey and Farley Blackwell will be seen in "To Flame," a World attraction. Tiam Farnum, the popular actress, will be seen on Friday and Saturday in a splendid production.

### THE SOLISSON.

Musical comedy, when properly presented, is generally relished by all classes of theatregoers, and from all reports Osborne's Dainty Chaderella Comedy company has hit the chord of popular approval. This aggregation of ten people open a week's engagement at the Solisson theatre Monday matinee, May 20. Coming from the big southern circuits the show makes its premier debut to Conneltsville patrons, and the management is preparing for a new box office record. The show has set a standard for new ideas, songs, dances and comedy situations that at once establishes itself as a favorite among its enthusiastic audiences. Our exceptionally clever principals of no mean ability backed by a chorus of six winsome misses round out a cast that is seldom excelled by companies twice its size in numbers. The music scores are of the catchy whistling variety and encores are frequent during the course of the performance. The costumes are of the Winter Garden variety, and numerous changes are introduced for each special number.

### THE ORPHEUS.

"THE HUNGRY HEART"—The "eternal triangle" with a new hypothesis, forms the basis for Pauline Frederick's new Paramount picture, which was taken from "The Hungry Heart," one of David Graham Phillips' best known novels. Besides the triangle—the wife, husband and the "other" man—there is Nanny, the jealous old housekeeper, and the
